# PHYSICIANS (Non-Industry/All Specialties)

## WE KNOW PEOPLE WHO NEED YOU

**Virginia Commonwealth University**

ASSISTANT VICE-PRESIDENT FOR  
RESEARCH AND GRADUATE AFFAIRS

Excellent opportunity with Virginia Commonwealth University, a large State-supported urban University in Richmond, Virginia. Requires administrative background and experience in research and graduate education. Over 16,000 students are enrolled in programs ranging from the fine arts to a variety of health professions. Located on two downtown campuses about twenty blocks apart, VCU benefits from continuing sociological change and population dynamics of an urban community. VCU is an equal opportunity employer. Negotiable salary. Liberal benefit program. Send curriculum vitae and references to Dr. L.A. Woods, Vice-President for Health Sciences, Virginia Commonwealth University, Box 606 - MCV Station, Richmond, Virginia 23298.

And we're in the best possible position to help you set up a rewarding practice, since we own and operate over 50 hospitals in the southeast and southwest. We can ease the burden of beginning with a unique offer. First, we will pay for an inspection trip for you and your wife. After you have investigated the community that needs your services (and we have many) and decided to accept our offer, we will arrange for a guaranteed income during the initial phase and move you and your family at our expense. On the professional side, we will smooth your introduction to the medical community and our hospital staff, and provide rent-free office space as you "settle in".
